

AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions and listings of claims in the application:

LISTING OF CLAIMS:

1. (currently amended): A pressure-sensitive adhesive tape comprising a supporting substrate made of a plastic film and a pressure-sensitive adhesive layer formed on at least one side of the supporting substrate, an uneven portion of the supporting substrate having a shape extending in the vertical direction against the longitudinal direction being disposed on one side of the supporting substrate, wherein a maximum stress at an elongation of not more than 50 % is larger than a stress at break, ~~and an elongation at break is from 100 to 300 %,~~ the plastic film is a film made of high-density polyethylene and low-density polyethylene, and the film contains a filler in an amount of not more than 5 parts by weight based on 100 parts by weight of the resin composition constituting the plastic film.

2. (original): The pressure-sensitive adhesive tape according to claim 1, wherein the maximum stress at an elongation of not more than 50 % is 11 N/10 mm or more.

3. (original): The pressure-sensitive adhesive tape according to claim 1, wherein the plastic film is a film made of an olefin based resin.

4. (original): The pressure-sensitive adhesive tape according to claim 3, wherein the olefin based resin contains high-density polyethylene and low-density polyethylene.

5. (original): The pressure-sensitive adhesive tape according to claim 1, wherein the supporting substrate has transparency.
